Introducing the : MHM Bin Press 1100

For 1100 litre bins

General Description:

Powered from a standard 13 Amp plug and with the simplest of controls, this model is perfect for positioning in limited space environments, The Bin Press 1100 will reduce bin emptying frequencies and has a very positive environmental impact. With its unique 'auto bin-lift' no pressure is put on the bins wheels or ground.

- Adaptor available suitable for 660 litre bins
