

Introducing the : MHM Rollpacker

www.mhmrecycling.com

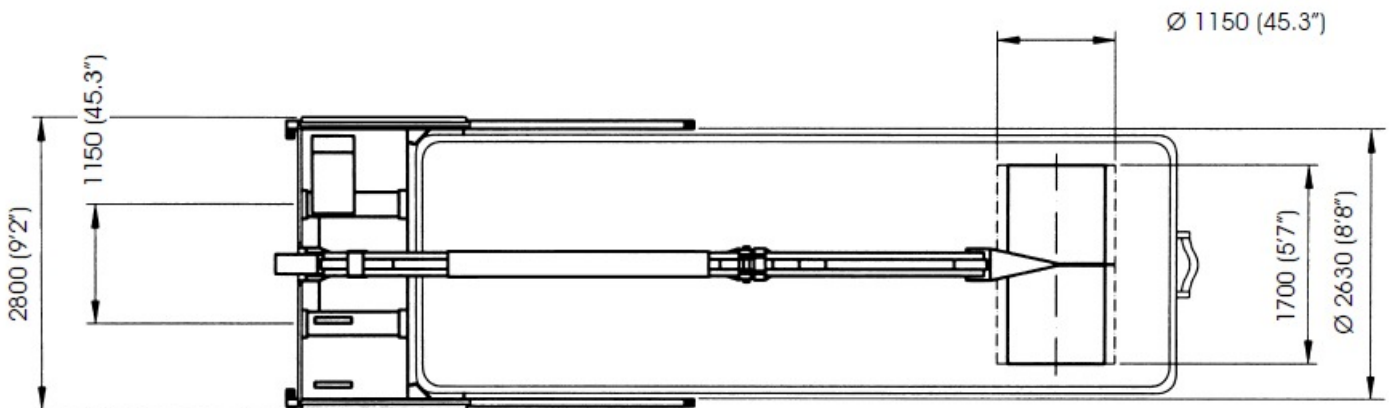

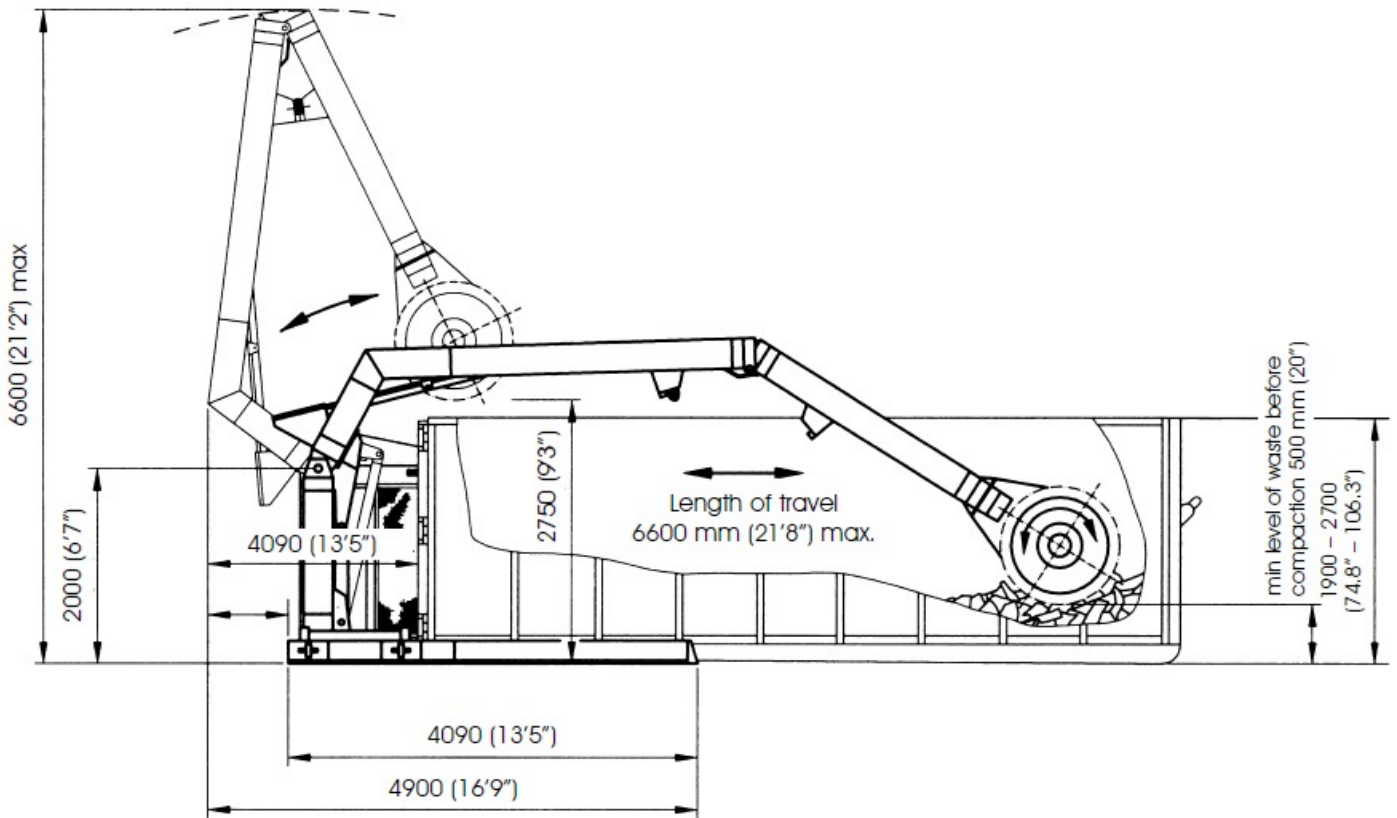

General Description

The MHM Rollpacker is for the compaction of pallets or other comparable wood fractions (10T of weight instead of 2T in one 40yd container), voluminous, bulky wastes of all types and for the compaction of reusable, valuable substance in a reliable, clean, cost effective and economic manner. Save on disposal and/or incinerating costs by removing recyclable waste and providing potential income.
